Professional **labelling** solutions

Technical Information

Hardware

Housing Dimensions	116mm(W) x 190mm(D) x 127mm(H)
Housing Weight	1.2kg
Housing Colour	Silver / Black / Blue
Advanced Cutter	Automatic full cutter with continuous half cut capability
Power	AC adapter (AD-9000) 120v to 240v AC
Status Indicator	Multi-colour print/error lights
Items Included	User Guide
	CD Rom (Software/Driver)
	AC Adapter
	USB & Serial Cables
	Black on White 24mm TZ Tape
	Lettering Stick
	Label Catch Tray
Tape Type Compatibilty	TZ (Standard), HG (High Grade)
Tape Sizes	6 / 9 / 12 /18 / 24 / 36 mm
Print Resolution	360 x 360 dpi (up to 720 x 360 dpi with HG tape)
Max. Print Height	27.1 mm
Print Speed	20 mm / sec (For TZ tape)
	Max. 40 mm / sec (For HG tape only at 360 x 360 dpi)
Interface	USB 1.1, Serial
Network Connection	10/100 Base-TX

System Requirements

Interface	USB 1.1 Port Ⓜ Ⓦ, RS-232C Ⓦ
Computer	PC installed with Microsoft® Windows® 95, NT4.0
	(Service Pack 6) 98/98SE/Me/2000 Professional/XP Ⓦ
	PC pre-installed with Microsoft® Windows®
	98/98SE/Me/ 2000 Professional/XP Ⓦ
	Macintosh series with USB port installed with
	Mac OS 8.6-9.x Mac OS X 10.1- 10.2.6 Ⓜ
Memory	Minimum 64MB Ⓦ, Minimum 24MB Ⓜ
Hard Disk	Minimum 70MB Ⓦ, Minimum 100MB Ⓜ
Others	CD-ROM Drive for installing software Ⓜ Ⓦ

Software

Software Supplied	P-touch Editor Version 4.0 Ⓦ, Version 3.2 Ⓜ
	P-touch Quick Editor Version 1.2
	(incompatible with Windows® 95/NT4.0)
	High speed printer drivers
Available Fonts	All True Type Fonts installed in your computer

	QR CODE Ⓦ / Data Matrix Ⓦ
Sequential Barcoding	Yes
Copy Printing	2 - 5,000 (Max)
Tape Margin Settings	1 mm - 127 mm
Time / Date Printing	Yes
Mirror Printing	Yes
Vertical Printing	Yes
Sequential Numbering	Yes - numbers and alphabetic characters
Database Compatibility	Microsoft® Access Ⓦ (97, 2000 and 2002), CSV Ⓦ,
	Excel Ⓦ, P-touch Editor format Ⓜ
Automatic Format	14 categories Pre-formatted label templates
Table Insertion	Yes Ⓦ
Screen Capture	Yes Ⓦ

Ⓦ **Windows only**
Ⓜ **Mac only**

TZ TAPE   HG TAPE
6-36mm

····· **Always** at **your** side

Serial and USB interfaces. The machine can even be connected to a network of PCs.

A versatile label cutting system allows strips of labels to be printed and used as required.

Prints up to 360 x 720 dpi – perfect for ID labels (with HG tape).

Nothing will go astray thanks to the catch tray designed to collect labels until they are ready to be applied.

High print speed of up to 40mm per second (with HG tape).

The P-touch 9500PC from Brother.

The P-touch 9500PC is a high performance, PC compatible labelling system, designed to produce exceptionally high quality labels in an instant, making it the perfectly flexible solution for the office, warehouse, store, laboratory or hospital. This label printer is also the ideal machine for printing durable bar code labels.

The labelling machine that puts you in control

In a working environment where a wide variety of labels are required as soon as possible, the Brother PT-9500PC will produce exceptional levels of performance. This high speed labelling machine prints up to 360 x 720 dpi (with HG tape), and is compatible with all of Brother's labelling software.

Enhanced performance from simple to use software

Brother's easy-to-use software has been designed to produce an outstanding performance from the P-touch 9500PC. It opens up almost limitless labelling possibilities and will certainly improve the efficiency of any workplace.

NEW P-touch editor 4.0

P-touch Editor 4.0 is the most advanced P-touch software available. It's easy to use and allows you to design and edit your label on screen before printing, making label possibilities endless.
The P-touch Library within P-touch Editor 4.0 is an automatic saving and previewing function, enabling you to easily find previously made labels, even if you haven't saved them.
The screen capture function allows you to grab whatever you see on screen and print it, directly onto a label.

P-touch Quick editor

The ultimate software for printing instant labels gives you the ability to grab text from other applications currently being utilised on your PC. The software automatically fits your text to the width of tape currently in your machine.

b-PAC

Enables printing of labels directly from custom software, or from Microsoft Office suite of applications, such as Microsoft Word and Excel. The programmer uses b-PAC to produce a bespoke system, so you won't have to learn how to use a new software package. Further information and downloads can be found at

Tape options

Brother has developed a range of durable tapes that will enhance your printing options and improve labelling performance.

TZ tape - Laminated

TZ tapes available for use with the P-touch 9500PC range from widths of 6mm to 36mm. With the extra space available in 36mm tape, you can incorporate sizeable images into the label design, or print small labels vertically so that the tape itself will last much longer.

Tamper Evident – Laminated

Security tape is designed to leave a checkerboard pattern as an indicator that the label has been peeled off.
High Grade (HG) Tape – Laminated

For use only with the PT- 9500PC, this tape allows high-speed printing at a maximum of 40mm per second, twice as fast as standard tapes and high resolution printing at 360 x 720dpi.

Strong Adhesive Tape– Laminated

Has twice the adhesive strength of standard laminated tape, making it ideal for industrial or harsh environments.

BLACK	—	TZ-CL6		TZ-CL4			

All tapes are 8m except fluorescent tape (5m) and iron-on fabric tape (3m).
Cleaning cassette can be used approximately 100 times.
Some kinds of tapes are not available in some countries.

Longer Lasting Labels

Brother's unique, patented TZ tapes are designed to be extra hard wearing. Tests have shown that these scratch-proof labels can withstand heavy abrasion, electrical resistance and lengthy exposure to chemicals, sunlight, water and extreme temperatures from -50 C to 300 C. Brother laminated tapes consist of six layers of materials, resulting in a thin, extremely strong label. Characters formed with thermal transfer ink are actually printed onto the underside of the laminate. Sandwiched between two layers of PET (polyester film) this lets you create characters that are virtually indestructible.

Brother Laminated Tape Construction

protective coating (PET) 38μm
