Short Description

The FAX-L140 offers powerful fax performance and provides businesses with the added flexibility of copying, all from the one machine. With a fax transmission speed of up to 3 seconds per page¹ using a Super G3 33.6 Kbps fax modem, your documents are delivered in no time. The FAX-L140 produces high quality laser fax output at 14ppm and a 600 x 600 dpi resolution. Combined with Canon's unique UHQ (Ultra High Quality) imaging technology, it ensures that text and images are sent with exceptional quality.

High Quality, High Speed Faxing

- Using Canon's unique UHQ (Ultra High Quality) technology ensures text and images is sent with exceptional quality.
- Save time with the Super G3 33.6 Kbps fax modem delivers fast transmission speed of up to 3 seconds per page¹.
- Canon's laser technology produces high quality laser fax printing at 600 x 600 dpi.
- 340-pages of memory¹ ensuring there are no lost messages if paper or toner should run out.
- Dual access scans fax document into memory while receiving other faxes.
- FAX / TEL auto switch and Telstra FaxStream compatibility².

Low Cost, Low Maintenance

- An all-in-one toner cartridge makes it virtually maintenance-free.
- Low running costs with the all-in-one toner cartridge capable of printing up to 2000 pages⁴ at an exceptionally low-cost per page (toner yield based on 4% coverage on A4 page).
- Super 33.6 Kbps fax modem for fast fax transmission saving time and phone costs.

Exceptional Laser copying

- 30-page feeder for fast unattended faxing and copying.
- Multi-copy up to 99 copies.
- FCOT (First Copy Output Time) approx. 23 seconds.
