Specifications

	PH1000U
Projector Type	3 chip DLP
DLP Size	0.96 inches (Aspect Ratio 16:10)
Resolution*1	1920 x 1200 pixels
Lens	See the chart of Throw Distance and Screen Size shown on the right
Lens Shift*2 (NP26ZL, NP27ZL, NP28ZL, NP29ZL)	Vertical : Max -0.4 to +0.55 Horizontal : Max ±0.2
Lamp (Eco Mode On / Eco Mode Off)	320 W / 400 W AC
Lamp Life*3 (Eco Mode On / Eco Mode Off)	2500 H / 2000 H
Image Size (Projection Distance)	See the chart of Lens specifications shown on the right
Colour Reproduction	10-bit signal processing (1.07 billion colours) (VIEWER, NETWORK : 16.7 million colours)
Light Output*4*5 (with NP27ZL) Eco Mode Off	11000 ANSI lumens
Eco Mode On	Approx. 75% of Eco Mode Off
Contrast Ratio (White / Black)*5	2000:1 (with dynamic contrast on)
Maximum Resolution	WUXGA (1920 x 1200)
Scan Rate Horizontal	15 kHz to 108 kHz (RGB : 24 kHz or over) conforms to the VESA standard
Vertical	48 Hz to 120 Hz (HDMI : 50 Hz to 85 Hz) conforms to the VESA standard
Keystone Correction Horizontal	Manual Approx. ±35 degrees Max
Vertical	Manual Approx. ±30 degrees Max
Input Terminals Computer/Component	2 x D-Sub Mini 15-pin (1&2 IN), 1 x 5 BNC (3 IN)
HDMI	1 x HDMI Type A
DisplayPort	1 x Display port
S-Video	1 x Mini Din 4-pin
Video	1 x BNC
Output Terminal	D-Sub Mini 15-pin (only computer 1 input can be output)
USB Port	1 x Type A (for mouse, keyboard, USB memory)
Wireless LAN (USB Port)	1 x Type A
Wired LAN Port	1 x RJ-45 (10BASE-T / 100BASE-TX)
Control Terminal Remote	1 x Stereo Mini Jack
PC Control	1 x D-sub 9-pin
Environment Operational Temperatures	0°C to 40°C ([ECO MODE] is set automatically to [ON] at 35°C to 40°C), 20% to 80% Humidity (non-condensing)
Storage Temperatures	-10°C ~ 60°C, 20% to 80% Humidity (non-condensing)
Power Requirement	100 to 240 V AC, 50 Hz/60 Hz
Input Current	11.2 A (100-130 V) - 5.4 A (200-240 V)
Power Consumption (100 to 130 V AC / 200 to 240 V AC) Eco Mode Off Dual (Single)	1100 W / 1050 W (600 W / 580 W)
Eco Mode On Dual (Single)	880 W / 840 W (500 W / 490 W)
Standby Mode Normal	90 W
Network Standby	60 W
Power-saving	0.5 W
Calorific Value	3754BTU (Max)
Net Dimensions (W x H x D)	558 mm x 235 mm x 578 mm (not including protrusions)
Weight (Not including Lens)	39.5 kg
Gross Dimensions (W x H x D)	700 mm x 333 mm x 653 mm
Gross Weight	50.5 kg
Accessories	Remote control, Batteries (AA x 2), CD-ROM (User's manual), Quick setup guide, Important information Anti-theft cap for LAN unit, Power cord stopper
Regulations For United States	UL Approved (UL 60950-1), Meets FCC Class A Requirements
For Canada	C-UL Approved (CSA 60950-1), Meets DOC Canada Class A Requirements
For Europe	Meets EMC Directive (EN55022 Class A, EN55024, EN61000-3-2, EN61000-3-3), meets Low Voltage Directive (EN60950-1, TÜV GS approved)
For Asia/Oceania	IEC60950-1, Meets AS/NZS CISPR.22 Class A
For Korea	KC (safety : K60950-1, EMC : K00022, K00024, K61000-3-2)
For China	GB4943, GB9254, GB17625.1
For Russia	Gost R 60950-1, 51318.22, 51317.3.2./3.3.
For Saudi Arabia	SASO IEC60950-1

*1 : Effective pixels are more than 99.99%.
*2 : The Lens Shift function is not available for the NP25FL.
*3 : Lamp life is defined as the average time span for the brightness of the lamp to be reduced by half, it does not refer to the warranty period for the lamp.
*4 : This is the light output value (ANSI lumens) when the [PRESET] mode is set to [HIGH-BRIGHT]. If any other mode is selected as the [PRESET] mode, the light output value may drop slightly.
*5 : Compliance with ISO21118-2005
All specifications are subject to change without notice.

Options

Replacement lamp **NP22LP**

Replacement filter **NP03FT**

1.5G HD/SD-SDI board **SB-01HC**

SBC **N8000-8830 / N8000-8822**

Wireless LAN unit
NP02LM1 / NP02LM2 / NP02LM3
Model name of the optional wireless LAN unit varies depending on the country where the unit is used (or to be used).
NP02LM1 : United States, Canada, Mexico, Taiwan, Brazil, Colombia
NP02LM2 : Europe, United Arab Emirates, Saudi Arabia, Oman, South Africa, Turkey, Ukraine, Egypt, Israel, Australia, New Zealand, Japan, Thailand, China, Hong Kong, Singapore, South Korea, Malaysia, Sri Lanka, Pakistan, Vietnam, India, Indonesia, Philippines, Peru, Chile, Argentina, Ecuador
NP02LM3 : Russia

Power Cord **NP01PW1 (for US) / NP01PW2 (for EU) / NP01PW3 (for Japan)**

Remote control
(included accessory)

Cat.No. WDPJ-1207-522NN

Empowered by Innovation

NEC

Installation Projector

PH1000U

Produce images of up to 500 inches with high brightness of 11000 lumens and WUXGA resolution

Installation model meets the requirement for large screens in exhibitions and large venues with easily adjustable stacking function as well as high brightness and high image quality.

Achieves High Brightness and High Image Quality

Projection of large images with a high brightness of 11000 lm

When you need higher brightness, up to 44000 lumens can be achieved by stacking projectors and using the stacking software.

＊When using four projectors. This will vary depending on factors like installation environment.
＊The software will be downloadable at http://www.nec-display.com/dl/en/pj_soft/eula/index_sct.html around from Dec. to next Jan.

3-chip DLP system for high image quality

To produce high quality images, a 3 chip DLP system is used. This system produces lifelike image tones. The rich colour gradation reproduction improves the initial picture quality.
WUXGA (1920×1200) panel compatible with full HD displays

Utilises a high resolution WUXGA panel that enables the reproduction of even high-quality full HD content in its original beauty.

Cinema quality video using Hollywood Quality Video processing

HD-like vivid and crisp DVD images can be projected through Hollywood Quality Video which excels at following points and enrich your cinematic experience.
・Random and Mosquito Noise Reduction
・Video and Film Cadence Detection (3:2 and 2:2 pull down)
・Per-pixel Motion Adaptive De-interlacing
・Detail Enhancement
・Full 10-bit Processing, Scaling and Warping

3 : 2 Pull down Detection

Diagonal Interpolation to remove "jaggies"

New installation features

Supports dual layers stacking

Stacking to two layers can be facilitated by using the supplied columns. In this case, 22000 lumens of high brightness projection is available.

Stacking column
Stacking column
Upper projector
To tilt the upper projector horizontally, use the lower projector's horizontal adjustment knob.
Lower projector
The stacking columns can facilitate not only vertical but also horizontal projection angle adjustment.

Five types of lenses available to suit the projection distance

Five types of lenses are available, from short focal types to long focul types. Since it accommodates screen sizes from 80 to 500 inches, you can choose lenses to suit the installation environment.
*The lenses are not included with this unit.

Lens shutter that lets you blank the projected image when necessary

Lens memory function can adjust image to a preset memorized position using the inbuilt signal table even if the signal input changes
Seamless switching

When the input is switched, the image displayed before switching is held so that you can see smooth image changing without black image.
Geometric correction*

This feature adjusts the image when projecting onto specially shaped screen as below to expand your installation options.

＊The software is downloadable at http://www.nec-display.com/dl/en/pj_soft/eula/index_gct4.html

Spherical Surface
Vertical Convex Cylindrical Surface
Vertical Concave Cylindrical Surface
Horizontal Convex Cylindrical Surface
Horizontal Concave Cylindrical Surface

Multi screen function allowing near seamless joins between screens

There are two methods to do this. One method involves no limit on the number of the projectors that can be used and that there is no limit to the display resolution. Manual edge blending is a standard function of the projector. *[1] Another method, easy installation than the first method can also be used. It uses the detection of image distortion by use of a web camera and software, whereby the software will automatically perform the distortion correction.

*[1] This method requires a high degree of installation precision and an appropriate graphics board that support edge blending is required.
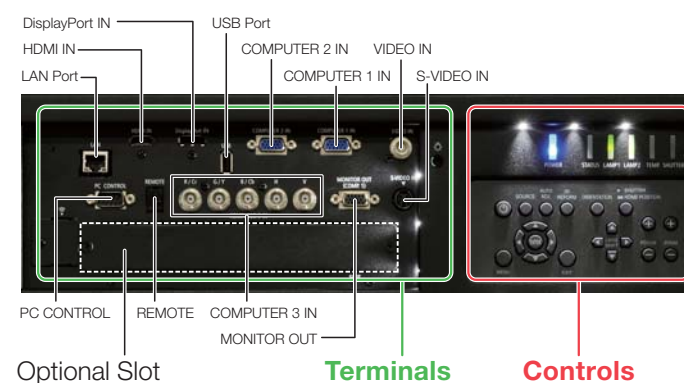

Blending area
No resolution limitation
Blending area
Easy Installation

Expandability for future-proofing your investment

An option slot to support next generation expansion modules including OPS-compliant SBCs and HD SDI card

Wide range of input/output terminals such as HDMI and DisplayPort

Compatible with PJLink and AMX beacon

PC Control Utility Pro 4* is compatible with Windows 7/Vista/XP

*The software is downloadable from our website

Compatible with wired LANs and wireless LANs (optional)

Dual lamp can support 24/7 operation
