

Castle Safe is a low to medium security safe designed ideally for small businesses and homes to protect valuables and documents against burglary and fire.

Castle Safe

burglar resistant safe

Features

- **Body** - The body has an effective barrier thickness of 61mm; constructed from steel, welded throughout to form a single unit and filled with Chubb safes **F60** specially formulated steel fibre reinforced concrete barrier material.
- **Door** - The door has an overall thickness of 135mm with an effective thickness of 25mm filled with Chubb safes F60 specially formulated steel fibre reinforced concrete barrier material and a high tensile strength solid steel plate to increase the overall strength of the door. The front edge of the door is secured to the body by a moving bolt bar that provides considerable strength against attacks. A solid steel rear anchor bolt is fitted to further protect the back of the door.
- **Locking** - Fitted with a 3-wheel Keyless Combination Lock and a 8-lever Key Lock which are both protected by a Relocker. Both locks operate independently of each other.
- **Concealed Hinge** - The safe comes with fully concealed hinges.
- **Fire Resistance** - Tested in accordance with the Japanese Industrial Standard JIS 1037:1989 for a 45 minutes fire rating.
- **Fittings** - The safe comes complete with a standard internal steel shelf which is adjustable at fixed intervals to suit individual customer requirements. A single door inner compartment is also available as an option.
- **Finish** - A Polyurethane base paint finish is used to coat the body and door. The paint is both scratch resistant and durable.

Options

- **Night Drawer Trap (NDT)** - Allow for effective deposit of cash and documents through a secured drawer without having to open the safe's main door. Upon closing the drawer, the contents would fall into the safe. An "Anti-Fishing Plate" is also incorporated to protect against 'fishing' attempts to remove the safe's content through the Trap.
Drawer Clear Opening : 239mm(W) x 153mm(H) x 125mm(D)
Night Drawer Trap External Height : 254mm
- **Envelope Slot** - Specially designed with a slit 13mm (W) x 152mm (L) on the top surface of the safe to facilitate easy and convenient deposit of small amount of cash and other less bulky documents without having to open the safe. Like the NDT, an "Anti-Fishing Plate" is installed to protect against 'fishing' attempts.
- A choice of two or three movement timelocks (*restricted to size 2 and size 3 only*) may also be fitted as an additional requirement. Other electronically operated locks may also be fitted as an option.
- A **Single Door Inner Compartment** with height 102mm can be fitted at the top of the safe as an Option.
