

Computerized Guard Tour System

Model **GOW03**

Features

- Read Method: Automatic sensors and Non-touch reading of RFID tag
- Physical: Metal structure, waterproof, durable, resistant to high and low temperatures
- Special Function: Powerful LED torch flashlight function, waterproof, Anti-wrestling
- Card-reading Technology: Switzerland Em Induction card-reading technology
- Storage Capacity: 7200pcs
- Date Safety: Data can be stored for 30 years without power
- High Speed Download: Download all the Data only needs 180 seconds
- Certificate: Ce, Fcc, Rohs.

Specifications

- Read Method: Rfid Auto- induction ,free from pressing any button
- Storage Capacity: 7200 Logs
- Special Function: Strong Led Flash
- Dimension: 176mm*Φ28mm
- Working Frequency: 125KHZ
- Net Weight: 210g
- Read Response: <0.2s
- Read Distance: ≤ 3cm
- Direction: LED+ Vibration
- Working Temperature: -20°C To 70°C
- Working Humidity: 30% To 95%
- Battery: 3.6v 900mA Chargeable Lithium Battery
- Lighting Power Consumption: <80ma
- Communication: Pogo Pin Connector Data Cable
- Communication Baud Rate: 19200Bps
- Standardized Accessories: Lithium Battery, Charger, Connection Cable, Leather Case
