Intelligent Door Access With Attendance System

Cutting-edge biometric device for door access and time attendance that seamlessly integrates modern technology with stunning design and robust functionality. Featuring a durable construction, intuitive touch-panel, and multiple verification options including fingerprint, card, and password, the SD360 offers both style and convenience to busy customers. With this device, you can enjoy a secure and hassle-free keyless door access solution, making your life easier and more exciting.

Flat Surface Scanner

flat surface fingerprint scanner for fast and accurate identification, making it an efficient and secure access control solution.

Software Control

Control and manage your data with Timetera TCSM.

Waterproof grade

Designed to be water-resistant and splash-proof, ensuring reliable performance even in environments with moisture or water exposure.

Multi-Verification Method

You have multiple verification option with SD360. Verify yourself using face, card, finger, even by password.

Easy Communication Methods

Sync SD360 with PC using one of these easy-to-use communication methods : TCP/IP, USB, Or Wifi.

Easy Data Management

With software you can manage data more systematic.
